Statistical Publication

Kyiv – 2020

State Statistics Service of Ukraine

Responsible for the issue **I.V. SENYK**

The publication contains information that characterizes the dynamics of the number of pensioners and people with disabilities as well as information on the amount of their pension allowance and various other types of provided assistance.

The publication includes the data from state statistical observations, administrative data from the Ministry of Social Policy of Ukraine, the Ministry of Health of Ukraine, the Ministry of Education and Science of Ukraine and the Pension Fund of Ukraine.

To the attention of the users: the information presented in the publication is based on the results of the state statistical observations for 2014–2019 and does not include the data from the temporarily occupied territory of the Autonomous Republic of Crimea, the city of Sevastopol and a part of temporarily occupied territories in the Donetsk and Luhansk regions (except table 1.2).

In some cases, the summation of presented figures may not be equal to their mathematical sum due to rounding.

When using the data and materials from this statistical publication “Social Protection of the Population of Ukraine“, please, make sure you have made reference to the original publication.

¹ The calculations were made in accordance with the "Methodological Provisions of the Updated Version of the System of National Accounts 2008" (the order of the State Statistics Committee of Ukraine dated December 17, 2013 No. 398).

² The data is preliminary.

A key indicator of the national accounts system (SNA) is a gross domestic product (GDP), an integrated indicator of a country's economic development, which characterizes the output of industrial activity of residents within the country's economic territory and is measured by the aggregate value of goods and services produced for the end use.

According to the preliminary estimates, the nominal GDP in 2019 amounted to UAH 3974,6 billion. Its volume per person stood at UAH 94570. At the same time, the actual final consumption of households in the GDP structure by expenditures accounted for 85,7%, and per person - UAH 81046.
