Bulletin *Basic Social and Economic Indicators of Ukraine* (infographics) contains macroeconomic indicators of the country's social and economic situation. Selected indicators are preliminary and could be revised based on the results of final calculations.

Data exclude the temporarily occupied territory of the Autonomous Republic of Crimea, the city of Sevastopol and a part of temporarily occupied territories in the Donetsk and Luhansk regions.

Data about **present population** are presented excluding the temporarily occupied territory of the Autonomous Republic of Crimea and the city of Sevastopol.

The calculations (assessments) were made on the basis of available administrative data on the state registration of births and deaths and the change of registration of the place of residence excluding the part of temporarily occupied territories in the Donetsk and Luhansk regions.

Data on **direct investment** as of 01.01–01.04.2018 are compiled using the administrative data of the National Bank of Ukraine (NBU) that, in contrast to the previous periods, include Ukraine banks' reinvested income amounts (calculated by the NBU on the basis of the retained gaining / losses data according to the share of direct investor participation in their capital).
